# Fidelity Systems: How to Keep Your Guests Loyal.

With CompuSoft bonus system and customer loyality solutions your guests collect bonus points when staying overnight, when dining in your restaurant, when using facilities and much more. CompuBonus makes it easier for you to keep your guests loyal.

With a customer account your guests can easily turn points into experiences.

Use the system for targeted marketing and keep your loyal guests informed.

## Cooperate with your partners

With the partner module the bonus system provides easy cooperation between you and your partners. Your guests can redeem their points visiting you or any of your partners.

## Earning is effortless

The more your customers use your facilities, the more points your customers can earn. With a personal loyalty card, your customer can easily redeem his or her points. The scores are completely adaptable to your ideas.
