Silicone Wristbands

Silicone wristband with integrated chip for easier ticketing, id, access control, and paperless payment

Used successfully at swimming pools, holiday resorts, and campsites.

Is also used as a key for electronic lockers and as paperless payment at cafeterias and other facilities.

Silicone wristbands are easy for your guests to wear and can be used again and again.

When the guest needs to activate their ticket, the wrist is simply held up against the chip reader.

Discreet light and sound signal the that the ticket has been approved.

10 standard colors
Standard colors: yellow, light green, dark green, light blue, dark blue, red, coffee, pink, white, and black.

If you want other colors, please state the desired RAL-color. MOQ for special colors is 1000 pcs. per color.

Printet or engraved logo

Laser engraving gives a very light embossing without color. Pad printing is used for colored logos or text. A maximum of 3 colors can be used. Color printing can eventually wash out when used in chlorine pools.

Print-ready layout is delivered in minimum 300 dpi editable pdf or eps. Text and graphics must be outlined. Due to the soft silicone material a very simple layout is recommended and as large as possible. Images and small graphic elements are not accepted.

Comes in 10 standard colors

Pink	Red
Light Blue	Dark Blue
Light Green	Dark Green
Yellow	Purple
White	Black

Comes with your own print or laser engraving
