Media Information
RFID Mini Cards

Info
Our mini cards are easy to use and bring with you in either you pocket, key chain, or wallet. The card can be used as a key, access cards, personal id, and as a means of payment.

The operation is simple - the chip is simply held up in front of the CompuMat reader unit for identification. Light and sound indicate approval and activation. Simple and easy. No buttons or display.

Material / Tech
PVC card with integrated RFID

Dimensions
55mm X 29mm X 1,2mm

Are delivered in all-white or with your own layout
Can be printed on two sides.

Minimum order
